BURNS IN TROUBLE AGAIN AT SEDALIA

MAN ACQUITTED OF THE JACKSON BANK BURGLARY ARRESTED

MADE A RAID ON A CLUB

Burns is Charged with Others of Forcing Members of Club to Hand Over Money and Jewelry

Owen J. Burns of Sedalia who was recently tried in circuit court here on charge in connection with the robbing of the Jackson bank at Clearmont, being acquitted of the charge by the jury is in trouble again according to the Sedalia Democrat. The following article is taken from that paper:

O. J. Burns, "Buddie" Wells, Irvin Edwards, and Frank Carey are in the county jail being held in connection with a holdup of club rooms in the 100 block on East Second street early Sunday morning. The holdup men are said by some to have secured nearly $4,000 in cash and diamonds, but the amount of loot could not be definitely established.

Eighteen or twenty prominent business and professional men, members of the "Saturday Evening club," which continued its sessions through the wee hours of Sunday morning were quietly enjoying the club's favorite pastime when about 2:30 o'clock they were rudely interrupted.

Four men garbed in overalls, and masked with a whoop and holler of "Hands up" "We'll Blow Your Heads Off" advanced with brandished artillery upon their intended victims. Need less to say hands went up and the four bandits proceeded to "clean house" taking the money possessed by number of those present. Two of the club mem bers are said to have been divested of their diamonds.

After sufficient loot had been collected the hold-up men spiked the door so members of the party could not give immediate pursuit and left through the rear entrance.

The fact that two of the men spoke furnished a tip to lead to their identity

Monday morning on the streets news of the holdup spread like wild fire owing to the prominence of the men connected with it. There was much speculation as to what action would be taken by members of the "Saturday Evening club" to break up the wholesale thieving and robberies which have occurred in Sedalia recently.

O. J. Burns was recently acquitted in Maryville, Mo., on a charge of connection with the robbing of the Jackson bank of Clearmont, Mo. Last week in circuit court here the bank officials won in a suit for recovery of the value of bonds stolen from that institution, and which had been in possession of Burns. Burns, claimed to have been given the bonds by two men to sell them, and that a commission was to be allowed for his trouble.

Rumor was late Monday afternoon that members of the "club" were "goin' to the mat," in an effort to secure convictions in the case.

Those arrested deny connection with the holdup.

They are bing held without bond, no information being filed against them up to late Monday. In the meantime Sheriff Bolton and other officials are working in an effort to secure addition al information concerning the daring occurance.

Burns, Edwards, Carey and Wells were arraigned before Judge J. C. Connor, Justice of the Peace, at 9 o'clock Tuesday morning jointly charged with highway robbery.

The defendants were represented by their attorneys, W. D. Steele and Wilkerson & Barnett.

Upon recommendation of Prosecuting Attorney A. L. Shortridge, the preliminary hearing was set by Judge Connor for Wednesday morning, March 31. Bond for Burns was fixed at $15,000 and for the other three men $10,000 each.

J. R. McAllister swore to information Monday evening against the men charging the quartette with robbing him of $650 and a diamond scarf pin valued at $1,500 when the accused, it is alleged, held up the members and secured money and valuables totaling near $4,000

RURAL SCHOOLS IN COUNTY CAMPAIGN

DISTRICT COMMUNITY MEETINGS TO BE HELD APRIL 8-9

TO DEMONSTRATE WORK

Representatives from Chamber of Commerce and from Other Towns Will Attend Meetings

Much interest is ebing manifested all over the county in the rural school campaign community meetings to be held on April 8 and 9. The schedules of these meetings have now gone to the teachers of the vitalized agriculturer schools and county Superintendent Cooper insists that pupils from these schools demonstrate a part of the year's work in each meeting.

The campaign managers have been furnished with the list of meetings allotted to their respective communities together with the hour of the meetings assigned them. A large chart of the county is being prepared on the wall of the county superintendents office listing each school where a meeting will be held and the names of the schools taking part in the meeting. Representatives from the Chamber of Commerce of Maryville are arranging to attend these meetings. Representatives from other towns are also invited to attend.

LOCAL ORGANIZATIONS TO ENTERTAIN PARK GLEE CLUB

Big Musical Organization to be in Maryville Next Monday Night at First Methodist Church

The Park Glee club will give a concert in Maryville Monday night at the First Methodist church

Various entertainment by the Chamber of Commerce, the State Teacher college and organizations of the First Presbyterian church have been planned for the pleasure of the visitors while here. There are nineteen members of the club which travels under the direction of Prof. R V Majers, head of the department of history of Park college.

The club has recently returned from an eastern tour which included concert s given in the principal cities and last year it made a trip to the Pacific coast taking the larged places enruote for giving of entertainments. There are soloists and two readers with the club.

The men will arrive in the city at noon from St. Joseph where they give concerts Saturday and Sunday. They will be guests at noon at a luncheon given by the Men's class of the First Presbyterian church.

In the afternoon the State Teachers college will give a reception for the club at four o'clock in the college library and they will be dinner guests of the Chamber of Commerce at their regular weekly dinner at the Balnum hotel

Following the concert at the First Methodist church the Westminster Guild of the Presbyterian church will entertain the club with a reception and supper in the Sunday school rooms of the Presbyterian church.

POWDERED ALUM WILL CLARIFY CITY WATER

A Maryville woman has found a way of clarifying the city water which is very muddy and rolled on account of the excessive rains and the work being done to the filteration plant. This woman has found the addition of three or four tablespoons full of powdered alum to a barrel of water added the night before will make the water perfectly clear and the use of the alum in no way hurts the water. A proportionate amount can be used to a smaller quantity. The addition of alum softens the water for clothes washing also

CITY SCHOOL NEEDS EXPLAINED BY SUPT.

GIVES PROPORTIONATE EXPENDITURE OF 25 CENTS LEVY.

WHY PROPOSED ADDITION

Needs for a Larger Building and Other Important School Matters Discussed by Supt. J. M. McDonald

The public has been asking many questions regarding how the proposed additional school levy will be spent and just how urgent is the need for an extension to the present High School building.

Superintendent J. M. McDonald has prepared a list of the most important items and has explained them fully in the following article.

How will the 25 cent levy for repairs and furnishings be spent?

This levy will raise about $8,000.00 dollars this year. The money will be used for all needed repairs on the present buildings. It will pay for any furnishings such as seats, desks, blackboards and for all repairs such as oiling floors, mending roofs, plastering and etc.

How does this levy provide money for increasing teachers salaries?

All repairs and furnishings have, heretofore, been paid for out of the general or teachers fund. If the levy is voted more money will remain in this general fund with which to increase teachers salaries.

Why is it necessary to vote a$75,000.00 bond issue for an addition to the present building? The present building is now over crowded. Classes are being held in thebasement and in remodeled toilet rooms. The enrollment in the high school department has shown the following increased in the last three years.

1918	221 pupils
1919	276 pupils
1920	332 pupils

This shows a steady inercase of about 60 pupils each year. Next year we can reasonably expect 400 students in the high school department.

Unless more classrooms are built, there will be no place for them to meet for classwork. In laddition to this matter of room, at least two more teachers will have to be employed. If the bond issue carries we will have room for expanding our vocational domestic department and for a new department of vocational agriculture. The salaries of these two new teachers will be paid by the state and federal government. If we are not allowed to put in these teachers whose salaries will be paid by the government, we will have to put in two other extra teachers and pay their entire salaries out of our own funds.

Do any other Missouri High Schools thave these government paid teachers now? About 80 of these teachers are employed inMissouri now. Savannah, Trenton, Chillicothe, Richmond, Excelsior Springs in fact practically all towns the size of our have already taken advantage of this free offer.

If our high school is overcrowded why not keep out all the non resident pupils? It can not be done under the law because every child in Missouri between the ages of 6 and 20 have the right to attend any public school in the state provided that child pays the tuition required.

Why not increase the tuition rate?

The Board of Education is planning to make a substantial increase in the tuition rates. The law requires that the charge must be "reasonable".

Why not wait a few years before building the addition?

The extra room is needed right now. There is no prospect for a decrease in the cost of building material.

What will be included in the proposed addition to the building?

Six classrooms and a gymnasium.

What use will be made of the gymnasium? It will be used for:

1 Physical exercises for all school children of all ages, including folk dancing for girls, calisthenics and setting up exercises for boys, volleyball, indoor baseball and basketball.

2 A place for school parties and social gatherings of all kinds which will be under the supervision of the school

3 A place for contests between school in basket ball and etc.

What advantages will our public schools gain should all of the proposed propositions be approved by the voters?

1 Recitation rooms for the rapidly increasing number of pupils.

2 A gymnasium for all kinds of physical education and for social gatherings.

3 The present small girls gymnasium will be re-modeled for the new Smith-Hughes Vocational Domestic Science classes.

4 The present small boys gymnasium will be remodeled for the new Smith-Hughes Vocational Agriculture department.

5 The salaries of all our teachers can be liberally increased.

6 The present ward school buildings which are so badly needing repairs, can be fixed up.

7 The Maryville schools will be able to maintain an equal standing with other schools in the state in towns the size of ours.

What would be the effect on our schools should the proposed levies fail to carry?

1 Our good teachers will leave us on account of the small salaries we can offer them. Our grade teachers are now being paid $2.10 and our high school teachers $3.00 a day figured on a yearly basis of three hundred working days.

2 The quality of teaching will steadily decrease.

3 The vocational courses in domestic science and agriculture will be denied our children.

4 Physical education could not be introduced into our schools.

5 Our school buildings could not be repaired.

6 Our schools would gradually slip backwards while those in other towns pass us by.

PROPOSED SCHOOL LEVY HERE NOT AS HIGH AS OTHER TOWNS

That the school levies to be voted on here at the election held Tuesday, April 6, are not unreasonable is evidenced by the levies that are being voted upon in the following cities in Missouri:

Chillicothe, $2.60
Excelsior Springs, $2.00
Moberly, $1.50
Flat River, $1.70
Kennett, $2.20
Carthage, $1.75
Cape Girardeau, $1.80
Sikeston, $2.00
Jefferson City, $1.45
University City, $1.40

The school levies for Maryville if they are carried will not amount to over $1.80 including the levy necessary for the sinking and interest funds of the bond issue of $75,000 for the addition to the school building. The levy for school purposes is $1, 40 cents being provided by law and 60 cents to be voted. This is the same levy as had been had by the school district for many years. Then there is the levy of 25 cents for the purpose of repairing and furnishing the school buildings and relieving the incidential fund of this amount so as to be able to pay teachers more. A levy of 15 cents for sinking and interest funds of the $7,000 yet remaining of the school bond issue originally $75,0000 and which has eight more years yet to run, will be adopted.

According to figures as prepared by the shcool board if the $75,000 bond issue carries it will not be necessary to have over a 40 cents levy to create a sinking fund and interest fund for the bond issue. The new building is badly needed on account of the lack of room at the present Washington building.

The total levies then, would be $1.80 which is as not high as the school levy for many of the towns in the state and would place our schools in the front ranks of the state.

"WASTE" BRINGS $13,000,000

Washington, D C —More than $13,000,000 has been realized since 1918 from the sale of waste materials including old metals rubber rags bottles, barrels boxes hides sweepings and condemned foods belonging to the army. In August 1919, the receipts from such sales totaled $1,902,303

A merciless judge is Father Time. Before him the weak and the wanting go to the wall. Only the truth can stand. For years the following statement from a Maryville resident has withstood the sternest of all tests.

Mrs. R. Snyder, 1008 E. Third St., says: I had pains across my kidneys for some time and couldn't rest well at night. Doan's Kidney Pills gave me great relief. The pain from my kidneys left, the feeling of languor disappeared and my health improved."

OVER THREE YEARS LATER Mrs. Snyder said: "It hasn't been necessary for me to use a kidney medicine for several years now, so I know Doan's Kidney Pills have given me permanent benefit. I gladly endorse this medicine, for I think highly of it."

SUGGESTS OSCAR MUTTI FOR MAYOR OF HOPKINS TO SUCCEED C. E. DONLIN

Our present mayor, C. E. Donlin, flatly refuses to accept the honor of aonther term, and, to be fair, we must admit that he has donated far more than his share of time in helping to make Hopkins a better place to live, having served as mayor for fourteen years and under his administration, many improvements have been made and conditions bettered in every way says this week's Hopkins Journal.

As he is to retire, we must look around for a suitable man to take his place and we can think of no one better qualified or who could be more acceptable to the people than Oscar Mutti, cashier of the Farmers and Merchants bank. All in favor of Oscar Mutti for mayor please say "I". Those opposed "No" The "I's" have it—there being but one descenting voice, that of Mr. Mutti, but he will not refuse to do his fully duty as a good loyal citizen if the people ask it of him, so it's Mutti for Mayor.

Dr. Miller does not wish to serve longer as alderman from the first ward and Peter Shaffer asks to relieved from the second ward, so Pettis Lew is and Oliver Young are menioned from the second and Duke Fike and Albert Sheley from the first—a quartet that ought to fill the bill.

It Solves The Farm Help Problem

Model D

It's going to be hard for some farmers to handle their acreage this season owing to the scarcity of farm help.

The only way to overcome the scarcity is to employ machinery that will do several men's work with one operator.

That's just the kind of a machine the Moline Universal Tractor is. Its ease of handling, great power and other useful features make it possible for one man to farm more land with it than he could farm with horse drawn implements and three or four men.

More Moline Tractors are in use in Northwest Missouri than any other kind, and we can direct you to a Moline owner any time. He will tell you just what you can do with a Moline and just what it will cost you to do it. He will tell you that a Moline will pay for itself in a mighty short time.

Tire Prices

Some False Ideas About Them

Should an extra price buy an extra grade tire?

It should not. Any first-grade tire should be built as well as a tire of that type can be built.

Cord Tires cost more than Fabrics, and are worth the extra price. Men who figure cost per mile are coming to Cord Tires.

But any tire, Cord or Fabric, should be built for the utmost service which that type can give.

Some Men Over-Pay

Some men pay extra prices, expecting extra mileage. Some pay under prices for an under-grade, and hope to save in that way.

Both are wrong. There may be exceptions—there are always freak tires. But countless tests have proved that Miller Tires at Miller prices, on the average, give the lowest cost per mile.

And Miller Tires, both Cord and Fabric, cost about the standard prices.

Tread Patented

Center tread smooth with suction cup for firm hold on wet pavement. *Geared-to-the-road*, side tread's mesh. The cogs it cut.

We Insist on This

There are three requirements which Miller Tires must meet.

First, they must average greater mileage, type for type, than any rival tire.

We constantly prove this. Eight machines in our factory run two tires each under rear-tire conditions. Each tire is run 650 miles daily by running extra-fast.

Won Over 21 Makes

The Eldorado Stage Co. of Los Angeles tested 21 other makes against Millers on 12-passenger Packard Buses, weighing 6,600 pounds loaded. In this supreme test Millers won by long odds, on long-distance uniformity.

Here we constantly compare the best other tires with Millers. Also in ceaseless road tests. Thus, day by day and week by week, we are guarding the Miller supremacy.

Every Tire Signed

We insist that Millers must be uniform. Each tire is signed. A record is kept of the maker, the inspector and the process.

If a tire comes back for adjustment we learn the reason. If the workman is at fault he is penalized. If the inspector overlooked a flaw he is held responsible. If any process or material is at fault, we correct it.

After years of this checking we've attained uniform tires. There are whole large cities from which not a Miller Tire came back last year.

Treads Must Endure

Miller Treads, by our standard, must outwear the balance of the tire.

We have attained a tread which outwears rivals by 25 per cent.

Every day our tread stock is vulcanized, then tested, in our laboratory. We permit no variation.

Not a single Miller Tire with these new-grade treads has ever come back with the tread gone.

Not 20,000 Miles

Countless reports come to us on Miller Cord Tires showing 20,000 to 28,000 miles of service. And tales of that kind are told everywhere, we learn.

But mileage depends on conditions—on size, care, load and road. Millers are uniform, but they are not used under uniform conditions.

In our factory tests we average 15,000 miles on Cords.

But a Miller Tire will outlast—almost always—any tire that you place opposite, no matter what it costs. Compare them under like conditions, and see what mileage modern tires can give.

You will gain a new criterion.

When you buy a new car insist on Miller Tires. Twenty car makers now supply them and there is no extra charge.

Big Hogs Pay Big Money

Especially When Fattened QUICK on LESS FEED—

That's apparent to everyone. Getting big hogs is another matter. And it's a serious one, too, in these days of high prices and large demand. No hog raiser can afford to take a chance of losing the big profits that healthy hogs are bringing every day, by relying on old-fashioned methods in hog raising.

The up-to-date hog raiser is feeding his hogs AVALON FARMS HOG-TONE and sending fat, healthy hogs to market. He's cleaning up because he gets the most fat out of every pound of feed. You can clean up, too, by using his methods.

AVALON FARMS POULTRY TABLETS

Use it to stop Cholera, White Diarrhoea and Indigestion among your Chickens and Blackhead among your Turkeys.

Money back guarantee.

We are also agents for the Economy "Force Feed" Self-Feeder. Our booth during Spring Opening Week is at Thompson's Seed House—1st Door West of Holt Imp. Co.

AVALON FARMS HOG-TONE frees hogs of worms, puts them in the pink of condition, and MAKES them get fat at an astonishing rate. One hundred hogs on the AVALON FARMS in a test under the supervision of the Purdue, Indiana, Agricultural Experiment Station gained 2.13 pounds each per day!

State Secretary Announces Meetings Over State—In Nodaway April 6

Dates for the county conferences of the Inter-church World Movement for the 114 counties of Missouri, arrangements for which are now under way, have been announced by Dr. George B. Downs of Kansas City, state secretary of the movement. All the conferences will be held from April 6 to 9, inclusive, which will mean that many of them will be in session at the same time.

The conferences for Nodaway and Atchison counties will be held Tuesday April 6

The conferences will be composed of the pastor, a layman and laywoman from each church in the county, and many visitors are expected to attend. Twenty eight teams of speakers, each team being composed of four men and one woman, will tour the state, speaking at the conferences on the question under consideration by the churches at the present time. These include the needs of the world, as shown by the home and foreign surveys of the Inter Church World Movement, the united financial campaign, to be made April 25 to May 2 and the enlarged program to be undertaken by the co-operating churches.

AS ARE SCHOOL BOARDS SO ARE SCHOOLS

Columbia, Mo., Mar. 25—New boards of directors will be elected in practically every rural school district in Missouri this month, and the fate of the schools will depend on the qualifications of the persons who are selected to manage them the coming year.

The condition of the schools today demands a sympathetic hand at the helm in every district. Never has there been such widspread concern for the schools. Teachers and educators, who are familiar with Missouri's educational crisis are awtching the school district elections with the greatest interest. If they could select the board members each would have the following qualifications:

Public spirited, with the power of leadership, knowledge of the value of education and a willingness to take the lead in selling the school to the community and not wait for the community to discover the schools.

They would believe that the schools were established to serve the children not to save the taxpayers money.

There would be persons who know there is the same difference between a ...ed and untrained teacher as there is between a "razor" back hog and a thoroughbred.

About Bill Toel

Bill Toel, the traveling man, travels in a Ford and he isn't near as big a li—we mean as big a man as he used to be, Henry's buzz cart shaking a lot of the surplus fat off of him, but it doesn't make him forget any of the funny stories for which he is noted never failing to bring a new one every time he comes to town. By analyzing this squib, you will see that we still give Bill credit with being just as big a li—ver as ever.—Pickering Items in Hopkins Journal.

What kills auto racers

Generally a bad tire—a blow out or rim cut that throws the car over or out of the track. The fact that every important race since 1917 has been won on Goodyear tires is pretty good evidence of their quality—

The winners didn't have blow-outs or rim cuts, even during the hardest, roughest driving in the world.

Most of these races were also won with Goodyear Heavy Tourist Tubes—the kind that only cost a little more and last a lot longer.

IMPERISHABLE STUCCO

YOU endorse the recommendations of America's most eminent building authorities when you choose stucco construction. It's a survival of the fittest—the one building material that defines economy, permanent beauty and low up-keep. But remember, the same vital differences exist in stucco as in any other product in which raw materials and human skill enter into the making. And the more thoroughly you analyze stucco, that much more will you approve of

KELLASTONE

IMPERISHABLE STUCCO

For homes, apartment buildings, schools, churches, and business blocks KELLASTONE is the ideal building material. The first cost is the last cost. It does not crack or chip like ordinary stucco. Absolutely fireproof—a perfect insulator—immune to heat, cold, wear and weather—always retains its original spic and span appearance.

You can't imagine what wonderful results can be obtained by **over-coating** any time-worn frame or brick building with KELLASTONE. The results are charming—adding stately beauty and years of service—enhancing the value—completely transforming the entire structure to one of modern design. And the best part of all is that the work is done without defacing the old walls or disturbing the occupants. Send for "The Story of KELLASTONE"—it's an inspiration to every builder.

The Presbyterians Balk

The St. Louis Globe-Democrat gives on its front page an interesting report of the meeting of the St Louis Presbytery. The first paragraph of the Globe Democrat's report is as follows: "The St. Louis Presbyterians as a denomination, voted disapproval of the Interchurch World Movement by an almost unanimous vote at a meeting of the St Louis Presbytery in the Washington and Compton Avenue Presbyterian church yesterday."

In the resolutions adopted four reasons for disapproval are given. Here they are:

First, that the Inter-church World Movement originated "without the church, and is assuming such tremendous proportions and obligations that it has become a peril to the church itself"

Second. The Presbytery is opposed to its "extravagant financial expenditures its very large force of workers, its endless institutes, conferences and conventions, with delegates reaching into the thousands, whose expenses are paid by the movement."

Third, "its enormous expenditures for rental of offices in New York."

Fourth, "its method of financing the movement through the so-called No-Man's-Land."

I X L Club

Seventeen members attended the meeting of th I X L Embroidery club which was held yesterday afternoon at the home of Mrs. Fred Curfman. Roll call was answered by the telling of current events. The president, Mrs. Anna Stauble, opened the meeting and presided over the business session at which time Mrs Harry Kerr was received into the club as a new member. This was followed by the fancy work and social hours after which a luncheon was served by Mrs. Fred Curfman assisted by her sister, Mrs Ernest Welborn. The club will be entertained on April 14, at the home of Mrs. Stella Malvern with Mrs Harry Kerr as hostess

SLICED bread and Blue Label Karo. Let the children have all they want, instead of high priced jams, jellies or preserves. It satisfies the natural desire for sweets and takes the place of high price store candy. Karo is a body-building, energy-producing food. Give it to the boys and girls after school when they want "something to eat."

Blue Label Karo is dandy for Home-made Candy. It is easy to make and costs much less than store candy. Write for *free* book of recipes.

P. S. Ask your grocer for the price of Karo by the dozen cans.

Mr. and Mrs. Gerald Whaley whose marriage took place Monday morning, returned yesterday from a short honeymoon trip to parts unknown. After April 5, they will be at home at 222 West Edwards street, and until then will be guests of relatives. Mrs. Whaley was formerly Miss Myrtle Hahn.

"Hobo Dance"

A befitting grand finale to the frolic the students of the State Teachers college enjoyed today in carrying out "Hobo Day" was the "Hobo Dance" held after school hours this afternoon in one of the gymnasiums of the college. Instead of being dignified school teachers versed in the knowledge of many books, both the men and women students were just plain "hobos" and little boys and girls today. A number of the College girls were seen on the streets wearing short gingham dresses and aprons backwards and having their hair hanging in little tight pig tails down their backs.

Killam-Taylor Wedding.

Miss Beulah L. Taylor of Hopkins and Ross R. Killam of near Gaynor were married Saturday night at the home of the bride's parents, Mr. and Mrs. A. D. Taylor southeast of Hopkins. Rev. B. D. Gillespie, pastor of the Christian church officiated. Following the wedding, a dinner was served to a large number of guests who witnessed the ceremony. Mr. and Mrs. Killam will make their home on a farm six miles southeast of Hopkins. The groom is the son of Mr. and Mrs. H. W. Killam also of that community.

Dinner Guests.

Mr. and Mrs. Clint Adams were dinner guests today of Mr. and Mrs. C. J. Duncan.

Mr. and Mrs. Cooper Gooden, Mrs. Anna Staubleand Mrs T D Kelley were dinner guests today of Mr and Mrs Eugene Rathburn at their home, 1201 N Main street.
